

BLAZE[®]

CHAFING DISH FUEL

THINK GREEN WITH BLAZE

And Improve Your Bottom Line

Blaze produces the Hottest and Safest canned heat, but did you know that Blaze is also Organic, Biodegradable and 100% Recyclable? Blaze has always been the leader in the Canned Heat Industry. A proud Environmentally Responsible Company using sustainable Resources, Blaze has been Conserving, Reducing, Reusing and Recycling for over 30 years.

As the industry leader, Blaze adopted Good Manufacturing Business Practices now called "Green" which include Conserving Resources, Reducing Waste and Operating Efficiently to produce a Smaller Carbon Footprint. All Blaze products are produced in the USA using natural and reclaimed raw materials from American Manufacturers.

ECO-FRIENDLY PERFORMANCE

Blaze is the only ISO 9001 Certified fuel manufacturer and the only company using 200-proof ethane; which insures the highest BTU's for a Hot, Clean, Safe buffet. Our ethanol is clean burning, long lasting, biodegradable without any toxins, and reaches the boiling point faster than any other canned fuel.

Underwriters Laboratories verifies Blaze fuel products are manufactured to UL safety requirements. Blaze is also the only chafing dish fuel manufacturer that is ISO 9001 certified, assuring product reliability, quality and consistency in every can. Blaze fuel products are NSF Certified, a label that protects consumers for food, water and goods. And Blaze's product standards meet Kosher certification inspections.

BLAZE PRODUCTS CORPORATION

For more information about the full Blaze product line, call our representatives at 1-502-633-0650 or visit our website at www.blazeproducts.com

Blaze produces the only organic jelled chafing dish fuel.

Blaze is clean burning, odor free and non-toxic with no harmful emissions. This ensures an enjoyable buffet experience for our customers and repeat business for the operator.

Blaze Jelled Ethanol is produced from natural and recycled raw materials. It's Environmentally Friendly using Sustainable Resources.

Blaze Jelled Ethanol (200-proof) formula delivers the highest BTUs. Blaze reaches the boiling point faster than any other canned fuel.

Blaze is the only ISO 9001 Certified fuel manufacturer. This assures our customers of product reliability, highest quality and consistency in every can.

Blaze products are made in the USA from raw materials produced in the USA.
